

# Southeastern Regional Shorthorn Breeders Show & Sale

OCALA, FLORIDA  
Saturday, March 7, 1953

# What is *the* Southeastern?

*No state has advanced further with its Shorthorns in the past year than Florida. Many new herds have been started. Above is a picture of some of the cows purchased by L. R. Kearns, Ocala, Florida, who bought the entire Hickory Creek herd formerly located at McHenry, Illinois.*

The Southeastern Regional Shorthorn Breeders' Association is made up of Shorthorn and Polled Shorthorn breeders from Florida, Georgia, Alabama, South Carolina, and Eastern Tennessee. The Florida, Georgia, and Alabama state associations are a part of this association.

The purpose of the Southeastern is to direct the overall promotion of the breed in the Southeast and to stage regional shows and sales at various points in the Southeast. In this way, each Southeastern Regional Sale has the benefit of drawing from the entire area.

During the year The Southeastern Regional sponsors four such shows and sales ... at Montgomery, Alabama; Valdosta, Georgia; Atlanta, Georgia, and Ocala, Florida.

The Ocala sale this year will be something special because the membership and particularly the consignors are fully appreciative of the tremendous strides Shorthorns and Polled Shorthorns are making in Florida. Every effort has been made to deliver a carefully inspected offering of top quality that will further stimulate interest.

SUTHERLAND RANDOLPH 2d — This is the bull that we exhibited to the grand championship of the Alabama State Fair. His sire, Sni-A-Bar Randolph was twice an International reserve grand champion. Sni-A-Bar Randolph sired the first prize get at the great 1952 International Livestock Exhibition in Chicago. His sons have sold as high as \$5,200. The dam of Sutherland Randolph 2nd was the top female in a Marellbar sale. She is a daughter of Klaymor Heir, the bull that left so many outstanding females in the Ringwell herd. We have had confidence enough in this bull to use him on some of our best females and feel that he is the kind that will strengthen the breed in the Southeast.

OAKWOOD HEADLINE — Is a rich dark red with bone, substance, thickness and the head of a breeding bull. A full brother topped the bulls in our 1951 sale to South & Gallaher, Franklin, Ohio. A full sister equally outstanding, was purchased by W. Lyons Brown for his Ashbourne herd, Prospect, Kentucky, in our 1950 sale. Coldoch Union Jack was a Perth supreme champion. Ceremonious Referee was a son of Lee Dale Collynie, International grand champion and both Oakwood Merry King and Oakwood Emperor were International grand champions and sons of the 1930 International champion. The promise of Oakwood Headline is certainly warranted by such proven inheritance.

# L SHORTHORN & SALE BREEDERS

## SHORTHORNS . . .

The World-Wide Beef Improver ...

Many ranchers are today following a cross-breeding program to add vigor to their stock. The most successful of all such crosses are those in which Shorthorn blood plays the dominant role. That is because Shorthorns give you the advantages of weight for age, more milk in the beef cow, and faster gains. That's why they are known as the WORLD'S GREATEST CROSSING BREED.

## STANDARD GUARANTEE of the AMERICAN SHORTHORN BREEDERS' ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's Disease of the state or country into which they may be shipped.
6. Certificates of registry and transfers will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off.

## SPECIAL SOUTHEASTERN REGIONAL GUARANTEE

In addition to the above guarantee all cattle sold through the sales sponsored by The Southeastern Regional Shorthorn Breeders' Association carry this additional guarantee which affects item three above. "All heifers sold as separate lots, regardless of whether or not they have reached 14 months of age are guaranteed to be breeders."
